# Arctic Nature & Culture Escape – 2-Day Winter Experience in Finnish Lapland

**THE PROGRAM IS AVAILABLE FROM JANUARY TO MARCH**

**Experience the essence of Arctic Finland in just two unforgettable days!**

**This compact yet immersive winter program by Northern Skills Finland Education is designed for international youth groups and educational travelers seeking a deep connection with Finnish nature and culture — even on a tight schedule.**

**Over two days, participants will:**

- **Learn essential winter skills like fire-making and cross-country skiing**
- **Explore Arctic nature through guided forest excursions and outdoor activities**
- **Bake traditional Finnish “tikkupullat” (stick buns) over an open fire**
- **Create Finnish handicrafts and learn about local traditions**
- **Interact with local youth through sports and shared experiences**
- **Discover the Finnish language and enjoy authentic local cuisine**

**The program concludes with a cozy evening by the campfire, reflecting on the experience and — weather permitting — watching the northern lights.**

**Rooted in the Finnish national curriculum and built on phenomenon-based learning, this program fosters curiosity, sustainability, and intercultural understanding.**
