The snowy Lapland winter is made for adventures. It provides an opportunity to experience snow-white nature and feel the fresh air invigorate your body.

This unforgettable and unique winter adventure camp is built around activities that provide experiences and learn new skills. The camp offers the opportunity to spend time outdoors, chase the northern lights, prepare food over a campfire, warm up in a Finnish sauna and then take a dip in a hole in the ice, and above all to learn knowledge and skills about exercise, the English language, geography, biology, handicrafts and Finnish culture.

Would you like to spend a day in the life of a Finnish child or young person? The camp takes a look at basic education in Finland, which is known for its high quality and excellent learning results. Campers will participate in lessons and will be able to meet and socialise with local children and young people. The camp will culminate in a visit to the one and only real Father Christmas.
